

Our highly qualified staff provides direct and highly competent assistance - that's what sets our service apart.

Our interest and efforts to expand and continuously improve our business activities make CTC a highly reliable company. Our products offer timeless design and superior quality at competitive prices.

Our team is capable of taking on any project, from developing an idea to its implementation.

CTC, with over 30 years of experience, represents the highest quality standards and excellent service in the field of building communication.

We develop and manufacture high-quality doorstations and video intercom systems, security systems and signage.

Our particular strength lies in manufacturing customized solutions that are constantly adapted to the new market conditions and the needs of our customers.

CTC is certified according to DIN EN ISO 9001:2015, which is the most widely recognized and significant quality management standard nationally and internationally.

All our products bear the CE mark and comply with EU-wide requirements for safety, health and environmental protection.

We are a team of professionals who love what they do.

Quality with expertise, vision and character.

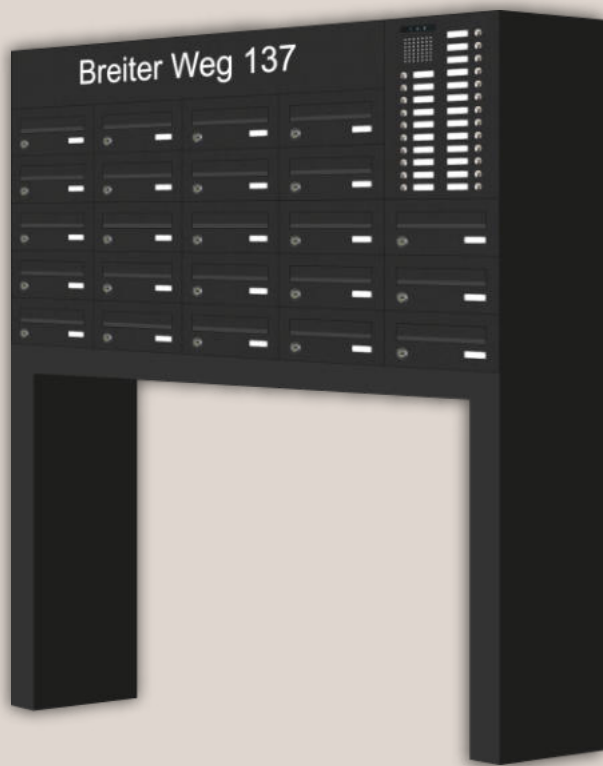

With luxurious designs and high-quality materials, CTC creates the perfect centerpiece for any entrance area.

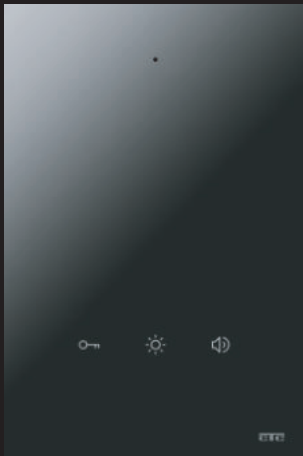

From individual mailboxes to customized communication centers, CTC offers the right solution.

The protection of a building is becoming increasingly important in this day and age. By implementing an efficient, modern and technical control system that authorizes entry to your premises, you can optimize your security. Depending on your choice, you can equip your access control with a keycard, keychain, code lock, face control or fingerprint system.

VENUS AUDIO

Venus Audio is an intercom system that offers an elegant design, modern technology and easy operation as an alternative solution to conventional analog interior systems. With its many advantages and simple 2-wire installation, Venus Audio allows for easy and quick exterior wall mounting without any additional effort.
